

SHORTEN THE DISTANCE BETWEEN HEALING AND HOME

Transitional care helps ensure a safe return home

Swing bed is a short-stay rehabilitation program where patients have 24-hour skilled nursing care with treatments and therapies customized to their injuries or illnesses. These valuable services help patients return home with the education they need to live independently—and safely— and can reduce the risk of relapsing and returning to the hospital for additional care.

You'll benefit from:

- Continuity of care from a skilled medical team
- Short-term rehabilitation following surgery
- IV therapy and wound care services
- On-site physical, occupational, or speech therapies
- Recovery close to home
